Professional:	Full Stack, Software Development Life Cycle, Database Design/Development

PROJECTS

AsahisDen *NodeJS, Express , MongoDB, HandlebarJS*   Coursework
· Developed eCommerce web application following **Model-View-Controller** design pattern leveraging HandlebarsJS template engine and **Express** framework.
· Can perform **CRUD** operations through MongoDB to fill product orders and register users.

LendAHand *NodeJS, Express, Firebase, Bootstrap3*   WinHacks2020
· Worked with a team of 4 to develop an online blog where teenagers can volunteer and help those who are elderly, injured, or sick to gain some mobility in this pandemic and beyond.
· Created **Authorization/Authentication** module to ensure security.
· Users are rewarded with volunteer hours after a task is completed.

Niazotify *NodeJS, Angular, Bootstrap3, SpotifyAPI*
· Created an Angular application that takes advantage of the **SpotifyAPI** to help search and fetch artists/albums information from Spotify.
· The **UI/UX** Design is compatible with people of all ages and was implemented in **Bootstrap3**

We-Ar *NodeJS, Express, MongoDB, Bootstrap3, WeatherAPI*   NewHacks2020
· Participated in the University of Torontos NewHacks2020 Hackathon and finished as a **runner-up** in the best WebHack category
· Developed a clothing matching web app using **Express** and **MongoDB** as a database to store the user's preference and suggest different clothing choices.
· The data from the **WeatherAPI** was used to predict the weather and the outfit that will be the most comfortable for the day.

COVID-Tracker *React, NodeJS, MaterialUI, SCSS, ChartsJS*
· Developed a COVID-19 Tracker/Stats Application using React with the addition of **ChartsJS**, **MaterialUI**, and many other modules.
· Data of **250+** countries is fetched from the COVID-19API using the **Async/Await** syntax and **React Hooks**, and statistics is displayed in cards as well as in charts.

WORK HISTORY

Private Tutor   Riyadh, KSA
Self-Employed   May 2015 - Dec 2018
· Broke down **complicated** concepts into simple, easy to understand steps.
· Gave advice on best practices and how to tackle questions that seemed difficult.

Procurement Supervisor   Riyadh, KSA
Wadi Grocery   Jan 2018 - Dec 2018
· Promoted to Supervisor because of excellent **communication** skills and team management.
· Implemented various ways to remove repetitive tasks to increase the teams **productivity**.
· Dealt with various customers and oversaw the **database** of the employees daily in a specific branch.
